

Project Demo Planning

8.Project Demonstration | Credit Card Approval Prediction

Prepared For	Prepared By	Domain	Date
Credit Card Approval Prediction	Ankitha Vana	Finance	July 1, 2026

Demo Objective

The demo should show how the system moves from applicant data to a final approval/rejection prediction through the trained machine learning model and Flask interface.

Demo Flow

Step	Demo Action	Expected Output
1	Introduce problem and project objective.	Audience understands the finance use case.
2	Show dataset columns and preprocessing notebook.	Audience sees how input data is prepared.
3	Show model comparison section.	Audience understands why the best model was selected.
4	Open Flask app and enter applicant details.	Prediction form is displayed.
5	Submit form.	Approved or Rejected result appears.
6	Explain IBM Watson ML deployment path.	Audience understands cloud scalability plan.

Links to Update

Link Type	Status
Demo Link	To be updated after deployment or video upload.
GitHub Link	To be updated after repository is created and code is pushed.
